

Mon. Oct. 25, 1971

Dear Vicki and Jim,

The plumber is here working on the plugged up drain in the sink and it is in the main drain so it it seems to be a mean job.

Mary and wife come over Sunday for dinner and we played bridge. We are going over there next Sunday because it is Halloween and our evening is ruined at home because the kids come here in groups for treats and it is almost impossible to have enough candy to last the whole evening.

The regional bridge tournament was on all last week at the Sea-Tac Motor Inn. Marie Donnelly and I come in second in the women's pairs.

Yours. Morn.

I went to the Seaduck place last night and have I am getting ready to go back and play bridge. After the bridge game I am going over to Mary's and bring her vacuum cleaner to

her. She had to have something fixed on it.

I'm sure you had another nice week end. Did you go to Tennessee? It is snowing up in the mountains now so the skiing will be starting before long. We are invited out to dinner for the next two Saturday nights so in three weeks we hope to go up to the cabin.

Aunt Stella had a good time in Reno but she didn't win any money, although she was there a week. She also went to Lake Tahoe. They stayed over night in Klamath Falls on the way home and that night there was a big snow storm.

Dad is busy at the office. He loves studying Swedish with me.

Love,
Mom.
